SUMMARY

An army barracks is located on the northwest edge of Shemakha, approximately 7 kilometers (km) northwest of the highway bridge over the Pirsagat River (Figure 1).

This secured installation is divided into administrative, barracks, storage, and driver-training areas. It covers approximately 55 acres and contains 3 barracks, 1 administration building, 2 storage buildings, 1 maintenance building,

6 possible quarters, and 5 miscellaneous support buildings (Figures 2 and 3).

KEYHOLE missions of fair quality photography covered the area between [REDACTED] [REDACTED]. The presence of numerous vehicles in the motor pool during [REDACTED] indicates that the installation was active. Lack of later interpretable coverage precludes determining its present status.
